COLORDESIGN BLEACHING POWDER

WITHOUT AMMONIA dust free

products for hair discoloration COLORDESIGN are formulated with the utmost care in order to allow the practitioner to achieve the desired results, allowing at the same time to preserve as much as possible the structure of the hair.
The choice of a rich and ammonia -free formulation of protective agents, including Silk Proteins, allows you to maintain an optimal hydro-lipid balance within the hair that will be therefore less stressed by the treatment, softer, comb, and a word, more healthy.
Powder AMMONIA FREE BLEACHING COLORDESIGN is dust -free, for a reduction of the phenomena of irritation due to inhalation involuntary. Combined with the correct Oxidizing Emulsion forms a fluid cream easy to apply. It's perfect for any technique : highlights, highlights, special effects, lightening and bleaching. Available in three colors : White, Blue and Purple.
