DECOLOR B DIAMOND DECOLOR B DIAMOND

Whitener with diamond dust

The diamond, the more valuable between the stones, is the mineral with the refractive index higher. The diamond powder addition to DECOLOR B DIAMOND increases the brightness of the hair and carries a slight smoothing action of its surface, making it more smooth and compact. The result is an extraordinary brightness.

The effect of no -dust reduces awareness and increases safety in the salon. The product allows you to lighten up to 7-8 levels.

box: 500 g bag saves space
