DECOLOR B SPECIAL DECOLOR B SPECIAL

fine powder whitener DECOLOR B is a base of cellulose derivatives. These substances, of vegetable origin, during the various stages of the process retain the natural moisture inside the hair, avoiding stress. Enriched with silicone derivatives that protect the hair during the whole process of discoloration. The blue color of the product also helps to counteract any yellow-orange shadows caused by the degradation of melanin. The product provides highly effective and very gently. Its lifting power than seven tones.
