ITELY AQUARELY BLOND COMPACT

Whitener microgranular gradual release of oxygen

With wheat proteins and essential oil of lavender

Exceptional micro-granular bleaching powder compact to exclusive gradual release of oxygen. Ensures both the speed and the bleaching power of the powder is the protective action and the conditioning of a cream thanks to wheat proteins.

Ideal for any service or lightening of color removal in a safe and quiet part of the hairdresser of use. The new composition of the product allows to optimize the size of the particles of dust preventing its dispersion into the environment during the sampling and mixing, thus avoiding the risk of inhalation, often cause discomfort during use.

Furthermore, the uniformity of the powder prevents the deposit in time of the heavier particles ensuring absolute constancy of results.

Easy to mix, pleasantly scented, does not swell and remains compact throughout the time of application, lightens up to 6/7 tones.

The gradual release of oxygen provides greater effectiveness. Wheat proteins protect and nourish the hair while the essential oil of lavender has a calming effect.

method of use : take 2 scoops of AQUARELY BLOND COMPACT and mixed with 90 ml of Aquarely Oxidizing Emulsion according to the following:

degree of bleaching 3 TONI: vol 20, shutter 20 minutes.

degree of bleaching 4 TONI: vol 30, shutter 30 minutes.

degree of bleaching 6 TONI: vol 40, shutter 40 minutes.

Any type of hair can be answered in a subjective manner to the product. Therefore shutter speeds and volumes are suggested to be considered as indicative only. The laying under a heat source is not required.

package : jar of 500 gr.
