PLATIBLOND EXTREME PLATIBLOND EXTREME

decolorizing powder blue

The powder blue decolorizing an intense lightening action with extreme speed. Its formula nonvolatile prevents the inhalation of dust and allows the use of each type of technique. With a pleasant scent of coconut, the mixture does not drip during application. With a lifting power up to 9 shades depending on the structure of the hair, thanks to its high power

moisturizing, leaves hair visibly healthier after application

method of use : mixing in non-metallic container 30 g PLATIBLOND EXTREME Oxiyunsey with 30 ml of 20, 30 or 40 volumes, depending on the level of lightening that you want to get. To get a more natural or less intense, it is recommended that you use the emulsion revelador Plus Color. We recommend a shutter speed from 10 to 60 minutes depending on the

and the desired lightening of the hair structure

box: Box of 50 g
