TRIOXXY

wrap packaging - goodbye hair frizzy and unmanageable

innovative products, dynamic communication, trendy and eye-catching design. TIBOLLI is a young brand but with clear ideas, designed to amaze, designed for those looking for something different, something unique. It is the smoothing treatment of TIBOLLI able to regulate even the most rebellious hair. TRIOXXY is ideal for those who want more hair soft, shiny, healthy and strong. Trioxy is the name of the molecule that laboratories research and development TIBOLLI have discovered and developed specially for hair care. The molecule TRIOXXY is in fact, a synergy of proteins that easily penetrates the hair repairing it from the inside thanks to the innovative system HDA Hydra Delivery System. Hydra Delivery System is a technology that revitalizes and improves the structure of hair. It is a system that covers every strand, sealing in its interior all the nutrients and moisturizers. The powerful blend of proteins TRIOXXY penetrates each strand, repairing the damage and nourishes the hair, improving its structure. This strong protection protects your hair from damage caused by weather and by the repeated hairstyles.

method of use : wash your hair twice with TIBOLLI PRE- TREATMENT SHAMPOO. Pre- dry the hair with a hair dryer to 80%. Divide the head into four sections. Trioxy apply with a brush on the hair strands with a thickness of 2 cm. Massaging counter- scale to ensure that the product penetrates well into the hair. Comb to remove any excess. Leave on for 5 to 35 minutes (5 minutes for thin hair and bleached, 35 minutes to hair, thick and curly). 100% dry the hair until the product dry. Seed cells in the hair thin strands starting from the nape of the neck. The number of steps depends on the roots, lengths and ends, and depends on the type of hair. The therm of the plate varies from 180 ° Celsius for the hair especially treated to 200 degrees for natural hair, right up to 220 ° / 230 ° for particularly resistant and curly hair.
