FRAMCOLOR ADD

color exalter

The secret of Framcolor ADD is in the beta-hydroxy acid, a substance that smoothing does not alter the pH of the hair and its structure. Enriched with Vitamins E (anti-aging) and H (restructuring), Framcolor ADD leaves the hair soft and compact. Framcolor ADD works on all types of hair :

- give a touch of gloss to the natural color
- renew a cosmetic coloring between a service and the other
- accentuate the nuances of Framcolor 2001 Futura and Eclectic
- toning streaks and discolorations
- retrieve the color after a ripple or a straightening
- make a mask ripigmentante

Shades available in 10 shades and many sweet scents, Framcolor ADD is also miscible with the lines of semi-permanent and permanent hair color shades to get personalized

box: 250 ml bottle
