### ARE YOU READY TO LIVE IN THE FUTURE?

Manage your customers with a CLICK...

BEAUTY CONFIDENCE - KYOMAÂ® ONLINE is a management software for hairdressers and beauty centers.

The management program provides all the functionality needed to manage the salon, in order to optimize business processes and maximize profits. You will not need to install anything on your computer and you can access the data with just an internet connection. The business data and those of our clients will always be protected, because it does not reside on your personal computer but on the server Kyoma. In addition, you have the security of not losing data, thanks to the backups that are performed regularly. Of course, each archive is only accessible from the customer who buys the rights, through a restricted area and not visible to prying eyes. The software is available in three languages ??, Italian, English and Spanish.

#### Advantages:

- Is a software exclusively ONLINE, intuitive and easy to use;
- Enables the complete control of hairdressers and beauty salons ;
- Ensuring the protection and security of data ;
- You can work in ways TOUCH SCREEN ;
- The only way to work using SMART PHONE OR TABLET.
