NEXT CREAM

Whitener Cream

NEXT CREAM is especially suitable for fine hair, processed, delicate.

Allows to carry out lightening streaks and freehand, with thermal maps and all application techniques. The innovative texture allows lightening uniform from root to tip. A base of beeswax and castor oil, is able to preserve the natural lipid structure of the hair. Ammonia-free and fragrance-free for non-volatile, comfortable for customer and for the operator. The homogeneous mixture adheres perfectly, not runny, not dry, not swollen. NEXT CREAM allows up to 5 levels of lift quickly, reliably technique. At low volumes NEXT CREAM can also be applied in the vicinity of the root.

method of use : versatile dilution from 1:1 to 1:3 depending on the technical work to be performed. The exposure times vary from 20 to 45 minutes without heat. In the presence of a source of heat times are halved.

box: stand-up pouch 500 g
